## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,9 & 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Lim et al (US Patent 5,822,998) Lim discloses an air distribution apparatus for a refrigerator and comprising: a body (4) partitioned into a freezing compartment (2) and a refrigerating compartment (3), an evaporator (12) disposed in body (4) an air distribution apparatus (17) disposed on one wall of the refrigerating compartment and further comprising a first air passage (18) and a second air passage (15) with a first duct (35)/ second duct (36). The ducts are arranged in a longitudinal direction at both edges for guiding the down-flow of the cool air through the first passage (18).

### ***Allowable Subject Matter***

Claims 2-8 & 11-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
